

[Note: The following template is provided for use with the Unified Architecture Method. Text enclosed in square brackets and displayed in blue italics (style=InfoBlue) is included to provide guidance to the author and should be deleted before publishing the document. A paragraph entered following this style will automatically be set to normal (style=Body Text).]

<activity-name>

[The name of the activity.]

Subsystems

*[Describe the subsystem mapping if not specified by the lanes or pools in the diagram (e.g., specific COTS product, specific custom application, etc. **Note:** Only required in the Technical Process Model.]*

Inputs

[Describe the input entities to the activity.]

Description

[Describe the step-by-step actions taken by subsystems or actors.]

Outputs

[Describe the output entities to the activity.]

Exceptions

[Specification of the exceptions to be handled.]

State Changes

[Describe the entity changes and state related to the actions.]

Logging

*[The specification of logging requirements. **Note:** Only required in the Technical Process Model.]*
